Translating Teaching Skills into Non-Teaching Occupations

*Outlined below are basic skills required for teaching and how those skills relate or transfer to non-teaching and related occupations. This information gives some insight into other potential career fields for teachers. (Refer to www.onetonline.net for additional information on transferrable skills.) These considerations are not meant to be an exhaustive list of jobs for which you may be qualified outside teaching. Rather **this is intended to help you begin to think beyond the label of "teacher" and to understand other options.** Some of these careers may require additional training and/or education.*

All primary and secondary level teachers have skills that can transfer to careers in:

- Instruction Coordinator/Trainer
- Instructional Designers and Technologists
- Training and Development Specialists
- Training and Development Managers
- Rehabilitation Counselors
- Adult Literacy, Remedial Education, and GED Teachers and Instructors

Primary secondary level teachers with specialties in English, literature, or history might want to consider:

Adult Literacy

- Vocational Education Teachers, Postsecondary

Counseling

- Mental Health Counselors
- Educational, Vocational, and School Counselors
- Substance Abuse and Behavioral Disorder Counselors

Social Services

- Child, Family, and School Social Workers
- Social and Human Service Assistants
- Social and Community Service Managers
- Social Workers, All Other

Recreation Programs

- Recreation Workers
- Fitness and Wellness Coordinators

Secondary level teachers in English, literature, history, computers, math and science have skills that could be used for careers in:

Research

- Social Science Research Assistants
- Market Research Analysts

Writing/Editing

- Writers and Authors
- Copy Writers
- Technical Writers
- Editors

Secondary level teachers with specialties in computers, math, sciences or industrial arts might want to consider pursuing careers in:

Technical

- Computer Systems Analysts
- Computer Operators
- Computer Support Specialists
- Network and Computer Systems Administrators
- Telecommunications Specialists
- Quality Control Systems Managers
- Quality Control Analysts
- Inspectors, Testers, Sorters, Samplers, and Weighers
- Industrial Trainers
