Founded in 1948

What started as a small family business is now a full-fledged employee-owned firm of over 30 people. Like many long-standing organizations, we have evolved over the years in order to respond to changing times, economies, and client needs. We began our journey in government military work – a field which took us all over the world - but we have since dedicated ourselves to more local specialties like healthcare, education, and the corporate/commercial sectors.

DELIVERING SOLUTIONS DESIGNED AROUND YOU.

For us, people matter most. We're more than an architectural and interior design firm, we're a family working with one common goal: to deliver design solutions that improve the way people live, work and heal. With more than seven decades of experience, we know that the collaborative partnerships we form with our clients are the key to achieving that goal. We're ready to deliver exceptional solutions designed around you.

Knowledge, Skills, and Abilities Needed

We are looking for employees who are or have...

- Good collaboration skills
- Adaptability

- Team players
- Good time management
- Willingness to engage in a "family"-like culture
- Willingness to engage in community activities
