National Hospital Direct Care (Mental Health Technician) Pathway - Orchard Hills Campus - Orefield, PA

Mental Health
Technician
Team Lead

Mental Health Technician Team Lead

assists the Nurse Manager in developing programs and teams at the module or unit level related to daily MHT module programming, staffing, crisis interventions, team meetings, clinical documentation, and safety protocols.

Shift Lead

assists in the administrative coordination of an assigned module. This responsibility includes providing direct supervision to MHT's, monitoring the overall functioning of the milieu environment, mentoring staff in the integrity and quality of the care and programming they provide, and directing responses to crisis situations.

Mental Health
Technician III

Mental Health Technician III

assumes a leadership role within the milieu in the absence of supervision staff. This includes the maximization of their experience to provide mentoring direction to less tenured staff and to provide a trusted model for children on a daily basis.

Shift Lead

Mental Health
Technician II

Mental Health Technician II

provides direct supervision and direction to emotionally and behaviorally challenged children and adolescents in a compassionate and respectful manner.
