

BUILD YOUR WAY TO A GREAT CAREER

As Kitchen Magic celebrates its 40th anniversary this year, we take great pride in the 50,000+ kitchens we've transformed across our eight-state service area. Our manufacturing hub is located inside our headquarters in Nazareth, Pennsylvania.

We began with one employee in a tiny basement office in Allentown, Pennsylvania in 1979. We have been at our 62,000-square-foot facility since May of 2010, when we returned to our Lehigh Valley roots. In addition to our cabinet manufacturing shop and Corian countertop production center, we recently purchased a brand new, state-of-the-art thermolaminator used for pressing our cabinet doors. The building also houses our business offices, a kitchen showroom and an in-house contact center.

Did You Know?

- Kitchen Magic is currently recognized as the largest specialty cabinet refacing and remodeling company in the Northeast.
- Today, Kitchen Magic employs close to 200 people throughout the Northeast.
- As a part of our manufacturing team, you'll help create high quality, finished products, and have opportunities for paid training and other perks.

Knowledge Skills and Abilities

We are looking for employees who are or have...

- Strong attention to detail
- Basic Carpentry Skills (comfortable using hand tools, read a measuring tape)
- Able to handle shifting priorities
