Business Description

Michael Baker International, a leading provider of engineering and consulting services, including design, planning, architectural, environmental, construction and program management, has been solving some of the world's most complex infrastructure challenges for more than 80 years with a legacy of expertise, experience, innovation and integrity.

Based in Pittsburgh and with nearly 100 offices nationwide, we partner with clients on everything from roads, bridges, tunnels, mass transit, and airports, to water treatment plants, arctic oil pipelines, environmental restoration and specialized overseas construction. We serve as a trusted adviser to the communities we serve, making them safer, more accessible, more sustainable and more prosperous.

Michael Baker provides innovative and cost-effective solutions to meet every modern construction project need. By partnering with our clients through all phases of construction, beginning with pre-design all the way through close-out, we are able to meet aggressive schedules safely and on budget. We provide qualified construction managers, inspectors, constructability reviewers, schedulers and estimators dedicated to adding value and driving efficiency from small projects to multi-billion-dollar construction programs.

Knowledge, Skills, and Abilities Needed

We're looking for employees who are...

- Safety conscious
- Passionate
- Committed
