Business Description

Established in 1995, Ondra-Huyett is a commercial construction manager in the Lehigh Valley and serves both local and surrounding counties. Founders, Mike Ondra’s and Keith Huyett’s vision: collaborate with owners, designers, and subcontractors to deliver the highest quality project results. Their goal was to become a trusted construction manager and do it economically, efficiently and at the lowest risk to all parties. The construction model that we’ve created works, and it has positioned Ondra-Huyett as a leader in eastern Pennsylvania’s construction industry.

To really know who we are, you must understand how we do business as a commercial construction manager. Before we move a yard of dirt, we build a prudent commercial construction plan. One that is relentlessly assessed to unearth any pitfalls, ensure schedules are realistic, dollars are wisely allocated, and every efficiency is considered. We become a strategic partner to our clients, providing straight answers, full disclosure of project details and an approach that minimizes stress and risk. As a team, we thrive on a challenge and view each project as a new puzzle, an opportunity to collaborate, innovate and excel. Whether it’s a corporate headquarters, mission-critical data center, medical facility, ski lodge or a cosmetic upgrade to an existing building, we take pride in our final product as well as the process through which it was accomplished.

Knowledge, Skills, and Abilities Needed

We’re looking for employees who are or have...

- Eager to collaborate
- Pursuing excellence
- Thrive on challenges
