JOB OPENINGS: <https://www.palram.com/us/careers/>

Business Description

For over 50 years, Palram has continually pushed the limits of thermoplastic technology to solve emerging market challenges.

Today, our PVC and polycarbonate products are used in countless applications around the world - from stadiums and airports to agricultural facilities, commercial buildings, and private residences.

Palram's manufacturing, distribution, and sales operations span six continents and over 120 countries, and one of the things that makes this possible is our most valuable asset - our people.

Our goal is to provide a family-oriented and exciting work atmosphere, employee education, skills training, and health and wellness support. These standards help us not only create long-term benefits and prosperity for our customers, but also for Palram employees.

Knowledge, Skills, and Abilities Needed

We're looking for employees who are or have...

- Ability to work as a team player and coordinate with fellow team members
- Ability to manage time and complete assigned work competently and effectively
- Ability to lift heavy materials and be physically fit
- Ability to use warehouse equipment (forklift and/or CDL certifications a plus)
