## About Schuler Service, Inc.

It's hard to come by quality, professional service these days. But it's the only kind we know at Schuler Service. Since 1923, we've made it our priority to provide only the best plumbing, heating, and remodeling experience for our customers in the Lehigh Valley.

We take the same approach when it comes to our employees. We work hard to provide above average income, tremendous learning experience and a fun, family environment that fosters growth and creativity.

LCTI provides excellent training and properly prepares students for the real world. We are proud to hire many students over the years and currently employ several recent grads.

At Schuler Service, Inc. we provide a valuable service to our community and we take pride in our ability to do so as we remain committed to training our employees as the ultimate future of our plumbing trade.

### **Knowledge, Skills, and Abilities Needed**

We're looking for employees who are or have...

- Honesty and integrity – the definition of these words is how you act when no one is watching. As a small company we must rely heavily on the honesty of our employees which is why this is the first thing we look for
- Confidence and Poise – Candidates must be able to maintain eye contact when shaking hands and throughout the interview process. They need to believe in themselves before we can.
- Communication skills and polite professional business and personal etiquette – We expect all candidates to be able to communicate their thoughts clearly in both written and verbal forms.
