

5600 Lower Macungie Road
Macungie, PA 18062

Established in 1895, Smooth-On, Inc. is a leading manufacturer of silicone rubbers, polyurethane rubbers and plastics, rigid and flexible urethane foams, epoxies, polysulfide rubbers, adhesives, coatings, release agents and other material technologies. Our production facility is located in Macungie, Pennsylvania marking the third time the company has moved its operations in its 120th year history.

Formerly occupying 80,000 square feet on 8 acres in Easton, PA, Smooth-On's new building is more than 370,000 square feet (34,400 square meters) on a 30-acre campus and includes new and fully equipped production, warehouse, lab, training and office areas.

Also included is a large retail space that showcases Smooth-On materials used for different applications. Intended inspire visitors with new project ideas, it is a themed area that features company products used to make movie figures, props and effects for Star Wars, The Hobbit Trilogy, Iron Man, Harry Potter, James Bond, Aliens, The Walking Dead and other films/tv shows.
